

## United Nations Inter-Agency Project on Human Trafficking

# MEETING THE PSYCHOSOCIAL, SOCIOECONOMIC, AND JUSTICE NEEDS OF UNDERSERVED VICTIMS OF TRAFFICKING IN CAMBODIA

## CALL FOR PROPOSALS

UNIAP / Cambodia Country Office

*Open through 5 March 2010*

### About UNIAP

The United Nations Inter-Agency Project on Human Trafficking (UNIAP) was established in June 2000 to facilitate a stronger and more coordinated response to human trafficking, in the Greater Mekong Sub-region (GMS) and beyond. UNIAP is managed by a headquarters in Bangkok, with country project offices in the capitals of Cambodia, China, Lao PDR, Myanmar, Thailand and Viet Nam. The seven UNIAP offices have a combined staff of approximately 30. While UNIAP is a UN inter-agency project, UNIAP receives financial support from its own bilateral and multilateral funding and not from UN agencies, allowing it to retain a neutral position within the UN that serves all UN agencies, governments, and NGOs equally. It is the only inter-agency coordinating body on human trafficking of its kind within the United Nations system. More information can be accessed at [www.no-trafficking.org](http://www.no-trafficking.org)

### Call for proposals

UNIAP and local partners in Cambodia aim to provide services to underserved victims of trafficking in Cambodia to improve their chances of successfully recovering from their trafficking experiences in the long term. Male victims of labor trafficking are an underserved population historically overlooked by service providers and authorities, though they are now recognized by 2008 legislation in both Cambodia and Thailand (the main destination of male Cambodian migrants and trafficked persons) as possible victims of trafficking. Additionally, while sex trafficking has been addressed for many years in Cambodia, and victims of sex trafficking may not seem to be an underserved victim population, UNIAP and partners have contact with many sex trafficking victims who have not received the support they need to healthily move forward with their lives.

Through three components, (1) Psychosocial support; (2) viable socioeconomic support; and (3) access to justice and compensation, UNIAP will offer underserved victims of sex and labor exploitation in Cambodia a range of support services to assist them in re-

gaining control over their lives, while developing sustainable systems for this support in the years to come.

UNIAP aims to provide financial support and collaborate with NGOs to identify, reach and provide services to these underserved victims of trafficking in Cambodia. UNIAP will provide funding for implementation over a 2-year project period. Programs must be innovative, effective, and targeted, with empirical means for verification of results and impact. Priority will be given to the following three themes, and NGOs may focus on 1 theme or combine 2-3 themes into their proposal:

Priority	Theme
<b>A</b>	Expand appropriate psychosocial support and services to underserved victims of trafficking, through counselor training and mobile counseling services
<b>B</b>	Develop and provide viable, sustainable socioeconomic/livelihood alternatives for underserved victims of labour and sex trafficking
<b>C</b>	Pursue cases on behalf of those victims wishing to see criminal investigations or gain compensation for the crimes committed against them
